Mother's Milk Carries the Laxative With It

No need to give Cascarets direct to the baby. If the mother takes them, baby gets the benefit.

This vegetable laxative conveys its full effect to the mother's milk. So one candy tablet, taken when needed, keeps both mother and baby

No other laxative is gentle enough for a baby. No other acts so naturally. Use Cascarets alone.

Any person living largely on milk must have the help of a laxative. Milk fails to supply the laxative effects that other foods supply.

So nursing mothers all need Cascarets

-to make the baby's food gently laxative.

Cascarets have the same effect as laxative foods would have. They are as harmless as food. That is not true of any other laxative

that the world has yet produced.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure to get the genuine, with CCC on every tablet.

The vest-pocket box is 10 cents. The month-treatment box 50 cents. 12,000,000 boxes sold annually.

Itching, disfiguring eruptions, rashes, boils, etc., as well as pimples, black-heads and rough, scaly skin, show the presence of some irritating humor in the blood. These acids and humors with which the blood is infected are being constantly thrown off through the pores and glands of the skin, and the flesh is kept in an inflamed, diseased and unsightly condition. Nothing applied externally can change the condition of the blood or prevent the outflow of these burning acids; only constitutional treatment can do this. Washes, salves, lotions, etc., cannot reach the humor-laden blood, and are therefore useless, except for the temporary comfort and cleanliness they afford. The acid poison in the blood must be removed before a cure can be effected. S. S. S. is a real blood purifier, possessing all the requirements necessary to neutralize and remove the humors from the circulation. It completely eradicates every trace of impurity and restores this vital fluid to its natural healthy state. S. S. S. cools the acid-heated blood so that instead of pouring out acrid matter on the skin, it feeds and nourishes it with health-sustaining properties, and then the eruptions and diseases of the skin pass away.
